DOCKETED

JAN 18 2011

DOCKETED BY

This correspondence is to answer the notice given to the respondent.

In reference to paragraph 10; I did not meet Mr. Fox until January or February of 2009.

In reference to paragraph 11; I had cooperated, albeit, slowly with the requests of information for the investigation and had downloaded the remaining information for electronic transfer to their possession. The termination occurred without any indication or communication as to a pending termination or to their intent to terminate. The information was downloaded approximately a week prior to the termination.

In reference to Paragraph 15; I had consented to the initial request to send the requested bank statements and then declined by email. The November and December statements had not been generated when the original request was given. The additional statements were what had been downloaded for electronic transmission referenced above.

In reference to paragraph 30d; I was told by a third party that there would be fees for my services. I don't recall ever discussing compensation directly with anyone at the company. There is no formal agreement of any kind between myself and the company. There have never been discussions or negotiations for my services with the company.

ROB T. HITCHCOCK
